EDUCATION

Maharaja Surajmal Institute of Technology2023 – 2027
B.Tech in Computer Science with Specialization in AI and Machine LearningCGPA: 8.94

EXPERIENCE

Grant Thornton Bharat LLPJune 2026 – August 2026
Summer Intern / Transformation ConsultingGurgaon

- Formulated a comprehensive redevelopment roadmap and strategic recommendations for a large-scale infrastructure development project, conducting market analysis, scenario evaluation, and creating revenue projections to guide feasibility and investment decisions
- Built an internal tool for automating data visualization in client reports and set up agentic workflows to streamline internal knowledge-work processes, earning a Spotlight Award for competence and delivery

Pricewaterhouse Coopers Pvt. Ltd.June 2025 – August 2025
Advisory Intern / One Consulting Practice - Integrated Advisory DivisionGurgaon

- Designed AI implementation frameworks for ground handling and passenger experience enhancement, covering solution architecture, ROI modeling, and change management strategies, and synthesized findings into client proposal decks that supported project bids
- Conducted regulatory review and revenue benchmarking for an acquisition assessment, synthesizing multi-source datasets through market analysis, scenario modeling, and policy compliance evaluation into structured deliverables

Airports Authority of IndiaJuly 2024
Intern / Cyber Security Operations CellSafdarjung Airport

- Audited AAI's enterprise network architecture, documenting cybersecurity infrastructure across firewalls, intrusion detection systems, and access control mechanisms to identify coverage gaps
- Proposed AI-enabled monitoring solutions to automate manual passenger-screening workflows, aligning technical requirements with existing network infrastructure to reduce manual review load

PROJECTS

FIFA World Cup 2026 Watch-Along DashboardGitHub
Python, Django, Machine Learning, React, SQLite, APScheduler

- Engineered a live match dashboard that polls external football APIs every 60 seconds, persists real-time goal events via Django ORM, and syncs game state with a React frontend
- Trained a calibrated multi-class win probability model (HistGradientBoosting) on StatsBomb time-series data; integrated live model updates on goal events to drive an interactive Recharts dashboard visualization
- Aggregated and seeded tournament data (including SoFIFA player ratings and official schedules) into SQLite to expose rich pre-match context and squad profiles via Django REST endpoints

Aviation Load Factor AnalysisGitHub
Python, Data Analysis, Data Visualization, Excel

- Processed and wrangled 100+ raw Excel files published by DGCA, reconciling inconsistent schemas across monthly statistical reports into a unified analytical pipeline
- Engineered three curated datasets for seasonal heatmaps, long-term COVID recovery trends, and passenger-to-cargo load factor shift analysis; produced high-quality visualizations through a streamlit dashboard

AI Debugging AgentGitHub
Python, Gemini API and SDK

- Built a lightweight AI code-editor from scratch that wraps an LLM in an autonomous feedback loop to inspect, modify, and test local application files
- Programmed system execution scripts and path-sandboxing safeguards to intercept LLM function calls, preventing directory traversal vulnerabilities during automated bug resolution

SKILLS

- Technical:** Python, SQL, PostgreSQL, SQLite, DBMS, OOP, Linux, Python Scripting, Data Engineering, Data Analytics, Product Analytics, Excel, Golang, ETL Pipelines, Agentic Coding Tools
- Non-Technical:** Problem Solving, Product Strategy, Analytical Reasoning, Data Driven Decision-making, Client Communication, Stakeholder Management, Technical Documentation, Presentation

CERTIFICATIONS

Programming in Python, Go Programming, OOP in Python, SQL with SQLite, Hackerrank SQL Intermediate, Fortinet FCA & FCF, NPTEL Data Science, Anthropic AI Fluency, McKinsey Forward Program, NPTEL Cognitive Psychology (Elite + Silver Distinction)

POSITIONS OF RESPONSIBILITY

- Operational Lead – Google Developers Student Club:** Organized workshops on NLP, ML algorithms, and AI solutions for the campus developer community
- Tournament Director – MSIT Fundraiser Debate 2024:** Managed marketing, design, and participant affairs for a fundraiser supporting Women Empowerment initiatives (raised 38,000 INR)
- Vice President – Debating Society:** Trained members in parliamentary debate and represented MSIT at Delhi University circuit tournaments
