EDUCATION

•**Maharaja Surajmal Institute of Technology**
B.Tech in Computer Science with Specialization in AI and Machine Learning

2023 – 2027
CGPA: 8.88

EXPERIENCE

•**Pricewaterhouse Coopers Pvt. Ltd.**
Advisory Intern | One Consulting Practice - Integrated Advisory Division

June 2025 – August 2025
Gurgaon

– Designed AI implementation frameworks and ROI models for passenger experience enhancement initiatives.

– Conducted technical market analysis and evaluated policy compliance for enterprise acquisitions.

•**Airports Authority of India**
Intern | Cyber Security Operations Cell

July 2024
Safdarjung Airport

– Analyzed enterprise network architecture and mapped critical security infrastructure across the airport.

– Documented cybersecurity protocols, firewall configurations, and access control mechanisms.

PROJECTS

•**Python CI/CD Pipeline**
Python, Docker, GitHub Actions, Git & Version Control

GitHub

– Built an automated CI/CD pipeline to continuously integrate and deploy a Python application, ensuring reliable software releases.

– Managed configuration files and utilized Docker containerization to maintain consistency across development and production environments.

•**Health Monitor Daemon**
Bash Shell Scripting, Linux / Shell Operations

GitHub

– Developed a custom Linux daemon using bash scripting to continuously monitor system metrics and resource utilization.

– Automated log collection and alerting mechanisms to respond to potential incidents, demonstrating strong shell operation skills.

•**Local Containerized LLM Deployment**
Docker, Linux, Bash, Container Networks

– Configured and managed a local multi-container environment to deploy LLM models (Qwen) and a frontend web UI using Docker.

– Handled container lifecycle, volume mounts for persistent data, and internal network port mapping across a Fedora Linux host.

•**Stock Price Prediction using LSTM**
Python Scripting, TensorFlow, Pandas

GitHub

– Built an LSTM neural network predicting market trends, showcasing robust data handling and Python scripting capabilities.

SKILLS

- **DevOps & Cloud:** AWS Fundamentals, Docker, Kubernetes, CI/CD, GitHub Actions, Git, Linux/Shell Operations, uv
- **Programming & DB:** Python Scripting, Bash Shell Scripting, SQL (DDL, DML basics), Network Security
- **AI & Data Tooling:** Agentic Coding, CLI AI Tools (Claude Code, opencode), TensorFlow, Pandas, NumPy
- **Core Competencies:** Product Management, Problem Solving, Technical Documentation, Communication

CERTIFICATIONS

- **Technical:** Red Hat DO080 (Containers, Kubernetes, OpenShift), Anthropic AI Fluency, HackerRank SQL (Intermediate), Fortinet FCA & FCF, NPTEL Data Science for Engineers
- **Non-Technical:** McKinsey Forward Program, NPTEL Cognitive Psychology (Elite + Silver Distinction)

POSITIONS OF RESPONSIBILITY

- **Tournament Director – MSIT Fundraiser Debate 2024:** Managed marketing, design, and participant affairs for a fundraiser supporting Women Empowerment initiatives.
- **Operational Lead – Google Developers Student Club:** Led student developer campaigns and organized technical workshops on ML algorithms, and AI solutions for the campus community.
- **Vice President – Debating Society:** Trained members in parliamentary debate techniques and represented MSIT at circuit tournaments.

EXTRA CURRICULARS AND HOBBIES

- **Interests:** Competitive Debating & Judging (Distinctions at Johns Hopkins, NSUT, and IIT Roorkee) | Reading (Philosophical Literature, International Affairs, Fiction)
