EDUCATION

Maharaja Surajmal Institute of Technology
B.Tech in Computer Science with Specialization in AI and Machine Learning

2023 – 2027
CGPA: 8.88

EXPERIENCE

Pricewaterhouse Coopers Pvt. Ltd.
Advisory Intern / One Consulting Practice - Integrated Advisory Division

June 2025 – August 2025
Gurgaon

- Worked within a cross-functional consulting team to design AI implementation frameworks for a client in the aviation sector, contributing to solution scoping and documentation
- Supported regulatory review and revenue benchmarking exercises for an acquisition assessment, helping organize research findings into structured analytical reports
- Assisted in preparing client-facing proposal decks by consolidating credentials, defining engagement scopes, and maintaining consistent presentation standards across deliverables

Airports Authority of India
Intern / Cyber Security Operations Cell

July 2024
Safdarjung Airport

- Studied and documented AAI's enterprise network architecture, mapping out how different systems and security layers interact across the organization
- Researched network security best practices applicable to critical infrastructure, summarizing findings into internal reference documents for the operations team

PROJECTS

Aviation Load Factor Analysis
Python, Pandas, OpenPyXL, Matplotlib, Seaborn

GitHub

- Downloaded and processed 100+ monthly Excel reports published by DGCA, each with slightly different formats and structures, and wrote scripts to clean and consolidate them into consistent datasets
- Handled real-world data quality issues such as missing values, inconsistent column naming, and varying date formats across years of government-published statistics
- Built three purpose-specific datasets for different analysis periods and produced charts to visualize load factor trends, COVID-era shifts, and seasonal airline patterns

Python CI/CD Pipeline
Python, Docker, GitHub Actions, Git

GitHub

- Set up a GitHub Actions workflow to automatically run tests and build checks on every push, and used Docker to ensure the application runs consistently across local and pipeline environments
- Wrote and maintained YAML configuration files for the pipeline, learning how workflow definitions affect build and deployment behavior

Health Monitor Daemon
Bash Shell Scripting, Linux, Slack Webhooks

GitHub

- Wrote a bash script that runs as a background Linux process, periodically checking CPU usage, memory consumption, and disk space against defined thresholds
- Integrated Slack webhooks to send real-time alert notifications to a channel when resource usage exceeds safe limits, replacing manual log-checking

SKILLS

- **Programming:** Python, Bash Shell Scripting, SQL, Git & Version Control
- **Tools & Platforms:** Docker, GitHub Actions, Linux, Jupyter, CLI Agentic Tools (opencode and Claude Code)
- **Data & Libraries:** Pandas, NumPy, Matplotlib, OpenPyXL, Data Cleaning and Analysis
- **Soft Skills:** Documentation, Structured Problem Solving, Communication, Teamwork, Presentation

CERTIFICATIONS

- **Technical:** Red Hat DO080 (Containers, Kubernetes..), Fortinet FCA & FCF, NPTEL Data Science, Anthropic AI Fluency
- **Non-Technical:** McKinsey Forward Program, NPTEL Cognitive Psychology (Elite + Silver Distinction)

POSITIONS OF RESPONSIBILITY

- **Operational Lead – Google Developers Student Club:** Organized workshops on ML and AI topics for the campus developer community; coordinated logistics and speaker outreach
- **Tournament Director – MSIT Fundraiser Debate 2024:** Managed end-to-end planning including marketing, design, participant coordination, and outreach for a fundraiser supporting Women Empowerment initiatives (raised 38,000 INR)
- **Vice President – Debating Society:** Conducted training sessions for members and represented MSIT at parliamentary debate tournaments across Delhi

EXTRA CURRICULARS AND HOBBIES

- **Interests:** Competitive Debating & Judging (Distinctions at Johns Hopkins, NSUT, Miranda House and IIT Roorkee) | Reading (Philosophical Literature, International Affairs, Fiction)
